

REACH – Information

regarding Regulation (EC) No. 1907/2006 for
Registration, Evaluation, Authorisation and
Restriction of chemical substances (REACH)

The producer/supplier

Interroll Engineering GmbH
Höferhof 16, 42929 Wermelskirchen, Germany

confirms that we comply with all applicable obligations under the REACH Regulation, including information requirements within the supply chain and will provide you with the necessary materials.

Information obligations under Article 33.1. REACH

As supplier of articles we are obliged to provide information only if a so-called candidate substance (= sub-stance of very high concern (svhc)) is present in an article in a concentration exceeding 0,1 % weight by weight.

We do not expect that concentration levels in our products will exceed the threshold. We are in constant dialogue with our suppliers, especially once the candidate list has been amended, and consider interpretation of the ECJ C-106/14 Judgment regarding the reference value of 0,1%: ECJ 106-14.

Restriction of substances, REACH Annex XVII:

Our products are in line with the substance restrictions set out by Annex XVII of REACH. In case changes to Annex XVII affecting our products will take place, we will inform our customers in a timely manner about changes and where applicable about substitutions.

A handwritten signature in blue ink, appearing to read "A. Lindholm", written over a horizontal line.
